

## LB10 BLASTER LIGHT

LUMATEQ is ahead of the curve with its new and improved line of LED Blaster lights. The latest in lighting technology is now available for commercial & residential installations and replacement. LUMATEQ Blaster lights assure efficient light distribution, free from environmentally hazardous materials and unmatched in energy savings. This LUMATEQ Blaster series is our brightest most state-of-the-art design for uplight, downlight, wall pack installations and more!

## BLASTER FEATURES & BENEFITS

- 15.5-Watt high output LEDs.
- Energy-efficient low-draw diodes.
- Replaces: 100 Watt MH lamp in downlight application; 150 Watt MH lamp in flood light application with 2x projection.
- Wide range of power supply with no special ballast or transformers required.
- Versatile mounting options to meet a variety of architectural applications.
- Comes with exclusive steel 180° swivel universal mounting bracket for up, down and wallpack installations.
- Clean look blends seamlessly with architectural elements.
- Wet and dry zone lighting.
- Crisp white, energy efficient light best for security cameras.
- Significantly longer life leads to reduced maintenance costs.

## MATERIAL CHARACTERISTICS

- LM 80 tested; waterproof; ETL rated IP-65 for "wet locations".
- Durable aluminum housing with 360°/180° steel mounting bracket; powder-coated finish.
- High-impact polycarbonate lens.
- Vibration and shock resistant LEDs.

## OPTIONS

- Directional Light Shield\* for dark sky compliance
- Available in Bronze (BRZ)

## MULTI-APPLICATION USE

- Uplight
- Full cut-off downlight
- Wall pack
- Pole light
- Area/canopy light
- 1/2 & 3/4 Cut-off light
- Flood light
